Lions Clubs International Used Eyeglass Recycling Program

Why Collect Used Eyeglasses?

- Globally, one child in four cannot see well enough to learn to read without eyeglasses.
- By age 40, 90% of adults experience a decrease in their ability to read print and need eyeglasses.
- Many emerging countries lack the resources to manufacture quality lenses, and the cost of importing eyeglasses is far beyond the means of the average citizen.
- Millions fail to reach their economic, educational, and social potential without access to quality eyeglasses.
- The World Health Organization estimates that the eyesight of one-fourth of the world's population can be improved through the use of corrective lenses. Unfortunately for many, a pair of glasses is both unaffordable and inaccessible. In developing countries, an eye exam costs as much as one month's wages, and a single doctor may serve a community of hundreds of thousands of people.

What Are the Lions Doing?

In the Midwest

- The Minnesota Lions have collected more than *five million* pairs of eyeglasses.
- The Minnesota Lions Eyeglass Recycling Center, a 501(c)(3) nonprofit organization in Sauk Rapids, Minn., collects more than 700,000 pair of used eyeglasses every year.

Wisconsin, where volunteers clean, repair, and classify the glasses by prescription. The facility distributes about 1 million pairs of glasses each year.

Around the World:

- For 80 years, individual Lions clubs and districts have collected old, unwanted eyeglasses for redistribution to the poor in developing countries.
- Lions and other volunteers go on missions to developing nations, donating travel expenses, time, and talent to carefully and professionally dispense recycled eyeglasses free of charge. Some people in these countries walk 50 miles because they have heard they might receive free eyeglasses from the Lions.
- It costs fewer than 8 cents to provide glasses to a person in a developing nation.

Minnesota Lions Multiple 5M Lions Hearing Foundation

Affordable Hearing Aid Project

The goal of the Affordable Hearing Aid Project is to help individuals who have a hearing loss and limited financial resources find a hearing aid at a price that is affordable to them, no matter how limited their financial resources may be.

The Hearing Foundation does this by collecting used hearing aids. These used hearing aids are sold to hearing manufacturers who use them for their repair service. Those funds, along with negotiated rates from manufacturers, audiologists and hearing aid dispensers, are used to purchase hearing aids at greatly reduced prices.

Your contribution of used hearing aids makes a significant difference in the lives of those who would simply slip through the cracks.
